

# 2020 North American Agricultural Safety Summit

## Media Kit

### **DON'T MISS OUT ..... selected sessions at the 2020 Summit**

- ◆ “Stewardship and Sustainability on a Large Scale,” with speakers from the big box suppliers will describe strategies that influence agriculture production practices leading to injury reduction in the worksite.
- ◆ “Improving Worker Involvement in OSHA compliance” will highlight programs and incentives leading to measurable improvements in safety practices.
- ◆ “Employers’ Role in Safeguarding Employee Wellness – Mental health, medical marijuana, opioid use, workplace violence” will share information on recognizing and addressing behaviors that affect individuals within and beyond the work setting.
- ◆ Break-out sessions will provide guidance to be applied toward specific commodity groups – Fruit/Nuts/Vegetables, Animal Agriculture Grains/Oilseeds/Cotton.
- ◆ “National approaches to Agricultural Safety and Health” will give updates on current and proposed federal programs available to augment worker safety initiatives in agriculture.
- ◆ Break-out sessions will provide insights in immigration labor force issues; safety for non-English speaking employees; case studies in incident reporting, and other topics.
- ◆ Breakfast roundtables will provide attendees with opportunities to discuss programs and policies of specific companies with the respective program director.
- ◆ A “lightning round” of quick research talks will lead attendees directly to the person(s) with whom they could strategize on future research needs.
- ◆ Leave this Summit feeling inspired and knowledgeable on next steps for improving safety practices for agricultural workers.
